SLAVERY AS A MILITARY ELEMENT.—In the seceded States, there were in 1860, 4,131,079 white and black males of all ages. Of these, 1,98[illegible] were slaves, leaving 2,377,039 as the number of white males. In the three States of New York Pennsylvania and Ohio there were 4,[illegible]20 white males of all ages. At first sight, one would think that the three States named could put in to the field a much larger force than all the seceded States, but such is not the case. For example: say half of the male population are neither fit for soldiers or laborers, the free States would have 2,[illegible]54,9[illegible] to fight and to produce. One half of these would be compelled to till the land for the support of soldiers in the field, and women, children and males who can neither work or fight, out of it: there would be thus, at the farthest only 1,127,480 soldiers. One half of the white males in the Southern States—say 1,188,514—would be fit for field service as soldiers; they would then have half of the male slaves, with an equal number of female slaves, in all nearly 2,000,000 to leave behind and cultivate the soil and support the soldiers in the field. Thus, the slave States having a total population, male and female, of not more than 6,000,000 can keep a larger army in the field than can the three largest States which have a total population of over 9,000,000. By this little calculation we easily learn what a powerful military element slavery is. If the entire population of the seceded States was composed of free whites, all those States could not, on the basis of the calculation made above, place in the field more than 1,032,768, against the 1,127,480 of the three largest free States. In other words, the slave proportion of a Southern population of 6,000,000 people is equal to an army of 155,000 white men in the field.—*Herald.*

TUESDAY MORNING FEB 24 1863

Eastern News

At no time since the blockade of the mail route last winter, has the facilities for obtaining anything of importance, in the way of news from the Atlantic States been so completely cut off. The overland mail between this place and Yreka has brought us nothing for the last four days. Once or twice the stages failed to connect beyond Salem, and once at Oregon City. We have not received any of our California exchanges since Thursday last, and but few newspapers from any source for the past week or more. The failure in the mail arises, no doubt, from the recent snows on the mountains and floods caused by its sudden melting in the valleys.

The only thing of importance that has reached us within the past week, came by the Bark *Almy*, which arrived at this port Sunday evening last. This news would have been noted in our yesterday's issue, but for sickness and other unavoidable circumstances which prevented us from obtaining it in time.

It is true the news received by the *Almy* comes to us second handed, or in the shape of a report from memory of a gentleman who saw a copy of the San Francisco *Bulletin* of the 12th inst., left by the Captain of the *Almy* at Astoria; still, there is good reason to believe that, in the main, it is correct as far as it goes. The most important item of this report, which we were not altogether unprepared to hear, is the reinstating of General McClellan to the command of the Federal army. That such a step was likely to be taken by the President has been forshadowed in previous reports from Washington. We do not propose, at this time, without knowing more definitely the whole facts connected with the cause or necessity of such a step, to comment upon the justness or probable results which may follow, but shall content ourself with the only fair and rational conclusion, that if McClellan has been reinstated by the President, good and valid reasons can and will be produced to the public, sufficiently and clearly explaining the same. We have always entertained a high esteem for the loyalty, devotion and faithful services of McClellan to the Union, and believed him to be an excellent commander and a skillful General, and shall be as much rejoiced over the victories which it is hoped he will gain, as we could possibly be under any other Commanding General. We care not for men, we want victories, no matter by whom gained, or how obtained, so that they are permanent, lasting and complete victories. And we want these victories to come speedily, following each other in quick succession, until the last vestige of disloyalty and treason shall be swept from the nation, and the glorious principles of our free and independent institutions again crowned with supreme might and power.

The following are the most important items from the news referred to, as reported from memory:

The pirate *Alabama* is reported to have arrived at the port of Jamaica, where she was repairing the damages sustained in her late action with the *Hatteras*, the crew of which she paroled and put ashore at the above named port. It was supposed that it would require four days for her to repair her injuries, and in the meantime the U S Consul had sent dispatches to Havana to notify our cruisers of the *Alabama's* delay at Jamaica.

Our Government has ordered the construction of a vessel to fit the iron armor which was lately captured on board an English vessel off Charleston, while attempting to run the blockade.

A battle is said to have been fought in the vicinity of Corinth, which resulted in a Federal victory and capture of five or six thousand rebel prisoners.

The steamer *Constitution* which sailed from San Francisco on the 11th inst., carried away $2,290,000 in treasure, which is the largest shipment ever made from this coast.

News from Walla Walla and Upper Columbia

We gather the following items of news from the *Statesman* and *Golden Age* of a recent date:

Reports of discoveries of new diggings still continue to excite the gold hunters in that region, every few days. There is every reason to believe that many important discoveries will yet be made of rich diggings, as the country has been but partially prospected.

The people of Walla Walla were luxuriating in the sports furnished by the fall of sufficient snow to admit of sleighing and its attendant hilarities.

Several business men of Walla Walla, among whom are the names of Stone & Ball, J C Isaacs and Brown & Dusenbury contemplate the erection of substantial and prominent brick buildings on Main street in that city, during the coming summer.

Walla Walla Market.—Most articles in the line of produce are now on the decline in this market. Oats and barley are wholesaling at 3½@4c per pound—one to one and a half cents less than the price in November and December. Hay commands $30 per ton delivered, Corn $1 50 per bushel, Potatoes, $1 50 per bushel, Onions, $5 per bushel and 6c per pound, Eggs 50c per dozen. Butter, 75c per pound. Seed wheat is scarce and continues at former prices, $2 50@$3 per bushel.

Death by Poison.—A man named James Hathaway died at the Pataha last week from the effects of chewing wild parsnip leaves. He had been chewing the leaves as a substitute for tobacco.

News from the British Possessions and the North-West

We collect the following items from the Victoria *Chronicle* of late date:

A Plot to Seize the Shubrick.—Within the past few days a plot having for its object the seizure of the U S revenue cutter *Shubrick* and her conversion into a privateer, has come to light. The facts we are told were fully known to Lieutenant Selden, commanding the cutter, before he left here on Thursday in his vessel for the Sound to bring down the mails. The names of three conspirators who belonged to her crew were furnished him, and our informant says that he had made every arrangement to place them in irons on arriving at Port Angeles. The plot was to seize the cutter before she had reached Port Townsend on her way up the Sound, overpower her officers and send them ashore. The cutter was then to be headed for this port and after taking on board a new crew and supplies in the outer harbor she was to steer away for the Southern coast to intercept the mail steamer. The friends of the Confederacy expected her yesterday morning and the new crew was in readiness to embark, but as she had not arrived at a late hour last night it is believed that the scheme has failed. Lieut Selden is a Virginian by birth but is said to be as true as steel in his devotion to the U S Government.

The Confederate Privateer.—From a communication published in the *Chronicle* of the 7th inst., it appears that the story of an attempt to purchase the British steamer *Thames* by a party of rebels in Victoria was really true. A Mr John T Jeffreys comes out and admits the fact and clearly proves that the *Chronicle* was correct in its report of the affair published a few weeks previous. This man Jeffreys says:

I admit freely that there was a Confederate Commodore here and that he had a commission in his pocket. I admit that a crew was picked and that the object was to injure Federal commerce in those waters. In short, I admit everything that you have stated except that the expedition was a piratical one and that the design was to burn the mail steamer. That would never have been done except in case of necessity which I think it safe to say would never have arisen.

I make this statements boldly not because I wish to render myself notorious but because you have meanly—with a meanness which your friends never supposed you capable of—violated a confidence reposed in you and made an affair public which you should have kept locked within your own breast. True, the thing had fallen through. True the Commodore had left and the scheme had been abandoned, but, sir, by what right, or by whose permission did you feel warranted in exposing the enterprise without first consulting its leaders or the parties who furnished you the information? I do not know who your informant was, and I do not care to know now (time was when I might have cared though) but this I will say that he has betrayed a sacred confidence reposed in him which he should have rather lost his life than to have done.

Whew! Mr Jeffreys seems to be highly indignant at the editor of the *Chronicle*, because he exposed the hellish plot and thus in a great measure defeated the scheme. The *Chronicle* very properly informs this Confederate Baron Munchausen that he regards him as a traitor unworthy of sufficient notice to call for any further controversy and dismisses him with just contempt.

At latest dates the steamer *Thames* had gone to Barclay Sound and was still the property of Anderson & Co of Victoria.

Private Generosity.—*Editor Chronicle*: Although the following handsome letter may have been intended private it contains sentiments so highly honorable to the American people and gratifying to myself as a citizen that I hope you will give me room for it in your columns and permit me through them to thank the writer for his liberal donation to the Fund I am collecting for the sick and disabled soldiers of the United States Army.

Yours respectfully
ALLAN FRANCIS
United States Consul

VICTORIA, Feb 5 1863

SIR:—It was my intention to have sent off by this steamer £20 all I can afford indeed more as my offering to the Lancashire Relief Fund, but my conscience asked me if the sufferers from the war now raging in the United States, have not acquired by the magnanimous generosity of the American people displayed by the noble contributions in aid of the distressed British operatives a claim on every Englishman's bounty as sacred as that of his own afflicted countrymen?

After mature consideration I feel that duty calls on me, and inclination prompts me to divide my mite between the two, as I could not according to my own conviction give all to one without doing injustice to the other; moreover it affords me the greatest pleasure to offer my humble tribute to the most generous nation on the face of the earth.

You will, therefore, please receive herewith $50 in aid of the Fund for the relief of the sick and disabled soldiers of the United States.

I have the honor to be
Your obedient servant
CHAS B YOUNG

A Francis, Esq, U S Consul, Victoria

Sanitary Fund.—The amount subscribed in this city and on San Juan Island for the relief of sick and disabled U S soldiers is nearly $1,000. A Francis Esq, U S Consul will forward the same to the Committee by the next steamer.

The small pox is reported to be disappearing among the aboriginal tribes on Vancouver Island and in British Columbia.

Wrecked.—The Schooner *Alpha* from Nanaimo went ashore on Seabird's Island twelve miles from Victoria on the 12th and stove in her sides, but as the water was shallow she sank only a few feet. There were eight passengers on board among whom was a lady and child all of whom were rescued the next morning after suffering considerable exposure in this cold and wet situation.

Snow had fallen to the depth of five or six inches on the 13th inst.

Washington Territory Finances.—From the report of the Territorial Auditor of Washington Territory it appears that on the 13th of December 1862 there was a balance in the Treasury of $3 [illegible] while the total indebtedness at that time as near as could be ascertained, was $9,011 67. The probable resources of the Territory for the ensuing year will amount to something over $8,000 00.

Shipment of Specie.—The specie shipments from New York to Havana, Liverpool and London for the week ending January 10 footed up $804 44.

Pierre Soule is still at Havana. By the terms of his release he is not to go to New Orleans until the war is over, unless allowed by the Government.

Washington's Birthday.—One hundred and thirty-one years ago to-day George Washington was born. One hundred and thirty-one years ... the founder of a great nation first ... [illegible] ... a life which had through ... [illegible] will yet live in bright and shining lustre while the lid upon the face of time shall mark a hundred decades and more ... [illegible] of centuries. For many years past it has been the universal habit—aye more than habit—it has been the delight of the grateful people of this nation to commemorate in some fitting manner the memory of our great national father and pay a respectful tribute to his many virtues which have shone forth in dazzling brightness bearing the unmistakable impress of divine origin and which will continue to illumine the pages of history while time lasts.

The 22d of February has for more than half a century [illegible] pleasant [illegible] to the history of the foundation of the Government and the memorable scenes, trials and hardships [illegible] and unflinching fidelity to the noble cause espoused by the men who freely shed their blood upon more than a hundred battle fields to gain the liberty and independence we now enjoy. When we say the freedom and independence we now enjoy, we mean all those who desire to enjoy and retain these blessings. That there are perhaps thousands of our Southern brethren who are not privileged to enjoy all the rights and blessings so nobly achieved as their inheritance, yet they can and no doubt do recur with heartfelt gratitude and a longing desire to again partake of the principles of a free people and look forward to the time when the yoke of bondage and the diabolical usurpations of wicked and desperate men, who have held them in check for the past two years shall again be lifted from their necks and they once more privileged to participate in commemorating their first freedom. If the people of this nation have felt delight at the reflection of their freedom from the yoke of oppression bound upon their necks by a foreign power, how much greater will that delight and joy be when they are again freed from a greater and more desperate oppression now resting upon them in consequence of the wicked rebellion which has for the past two years controlled the destinies of a large portion of our people. There will be other holidays and other anniversaries to commemorate in coming time which will be regarded if possible with greater esteem than those we have had in the past. Such, at least is our sincere belief and our fondest hope.

NEW TO-DAY.

THE ANNIVERSARY—of Washington's Birth Day happening on Sunday, the present year, our patriotic and intelligent citizens had either to choose Saturday or Monday as a day of suitable festivities for the occasion In some portions of the State the celebration was held on Saturday, and in others on Monday. We noticed on Sunday a large number of flags, the stars and stripes, that glorious ensign of our national liberties, floating in the pure air of heaven, from many of the towering staffs in this city, which gave us another cheering evidence of the faithful devotion of our fellow citizens to the cause of the Union and the maintenance of its just principles. Last evening was the occasion of the gathering of a large number of our citizens, to commemorate the returning anniversary, and right well was it done A very large and intelligent audience collected at the M E Church to witness the interesting and appropriate ceremonies selected for the occasion, which gave general satisfaction to all who attended that place. We have not space sufficient in this issue to give in detail the many references made to the memory of him whose day was celebrated, or the various appropriate and well-timed speeches and general remarks offered for reflection, but shall, probably, publish them to morrow

A gay time was had at the Gymnasium Hall, by the lovers of music and dancing, which was kept up until a late hour, when all retired to their respective homes, well satisfied that each had done his or her share towards perpetuating the memory of the greatest man that ever lived.

LECTURE.—Professor E A Tanner, of Pacific University, Forest Grove, will lecture at the Portland Academy, on Friday evening next, February 27th, at 7 o'clock. Subject—"The Practical and Literary Jonathan."

SELECTIONS.—We have more than once remarked the peculiar tact certain public journalists of our State, who profess to be intensely loyal, have exhibited in the clippings of miscellaneous news items from eastern papers. Not an item calculated to throw a shade over the doings of our Federal authorities, or the sad trials and unavoidable sufferings of those engaged in battling for our country's cause, escapes their scissors. Hundreds of these little insinuating paragraphs have been reproduced with remarkable regularity and pertinacious continuance, nearly all of which are calculated, nay intended, to create doubt, if nothing stronger, as to the real situation of affairs, and cause an uneasy, unpleasant suspicion that all is not as it should be. It is true, there is nothing positively conclusive as to their import or object; (which makes them only the more obnoxious,) still, their reproduction is unquestionably calculated to produce a feeling of distrust, the very mission upon which they are sent. It is hardly necessary to say that nine-tenths of them have no foundation in truth, either positive or speculative, but are hatched out of the hot-bed of treason, like struggling nondescripts, having no known parentage, and sown broadcast over the country, like the seeds of the poisonous thistle, to drop upon and take root in any place where the cultivation of faithful and honest fruits may chance to be neglected.

Do the two *Statesmen*, the *Mountaineer* and Olympia *Standard cumtux?* If they do, they will perhaps give us another flattering notice

Mothers Try It!—If you wish to find a medicine peculiarly adapted to cure the Snuffles, Wheezing or bad Colds in your children, which are so apt to bring on the CROUP, try DR. WM. HALL'S BALSAM, a safe and certain remedy for these complaints It is also pleasant to the taste.

[illegible]—The sudden changes of our climate are sources of PULMONARY, BRONCHIAL and ASTHMATIC AFFECTIONS. Experience having proved that simple remedies often act speedily and certainly when taken in the early stages of the disease, recourse should at once be had to "Brown's Bronchial Troches," or Lozenges, let the Cold, Cough, or Irritation of the Throat be ever so slight, as by this precaution a more serious attack may be effectually warded off. PUBLIC SPEAKERS and SINGERS will find them effectual for clearing and strengthening the voice. See advertisement. dec16daw3m

White's Fever and Ague Drops—For the cure of AGUE, PANAMA FEVER, NEURALGIA and GENERAL DEBILITY

This medicine has been used in private practice for many years with great success Indeed, in no instance has it failed to effect a speedy cure, in Ague especially one bottle having been found sufficient in most cases and in none are more than two bottles required.

A great number of testimonials could be given to verify these statements, but the proprietor prefers relying upon the merits of the medicine alone A cure is guaranteed in nine cases out of ten.

[illegible]

No Compromise with Disease.

[illegible] ELECTRICAL [illegible]

To the Ladies of California.

Dr Van Zandt's success in the complaints of women both in family and Hospital practice [illegible] Ladies can consult him with entire confidence as he is a specialist upon human ills [illegible] himself the only member of the legitimate profession in California who is really successful in [illegible] the peculiar province of the sex. His high appreciation of their delicately attuned nervous organization together with their great sympathetic life renders him [illegible] to assuage those silent complaints [illegible] sympathy and [illegible] No social [illegible] affect our home circles, for he can awaken the still [illegible] of the body, awaken the mind [illegible] desponding, and rest the brains which cause so much anxiety [illegible] cure those [illegible] have so long

Baffled the Skill of Physicians.

Developing appetite life and animation dispel nervous headache [illegible] wandering pains wasting away of strength [illegible] debility and life essences [illegible] sleeplessness [illegible] and that general depression of life [illegible] to render her life a misery and death a boon Dr Van Zandt with his new method of exciting the Electro-Galvanic current together with his remedies which are adapted to the necessities of California, will assure you of a complete and radical recovery of all bodily and mental infirmities, and will restore you to usefulness, and spare you a blessing to your family and society

All the world over

wherever disease exists whether special to the soil and climate or common to all regions—epidemic or casual, acute or chronic [illegible] contagious—it is as necessary to restore the ELECTRO-GALVANIC equilibrium especially in California, as it is to give food to the starving. This statement is based upon a series of facts extending through many years and verified by hundreds of patients; so that no principle of science, no rule of experience, no result of any well known cause rests upon more sure and unassailable foundations than those which underlie the world wide reputation of Electricity for the cure of all nervous states of the body [illegible] mental and physical debility or prostration [illegible] asthma [illegible] pains of a rheumatic, gouty or neuralgic character and all forms of disease the result of scrofula or hectic habit of body

None Need Despair of Relief.

If you have ulcers which will not heal—pains that cannot be removed—[illegible] which you cannot shake off—loss of power which you cannot regain—depression of spirits which weigh you down—wakefulness that knows no sleeping—business that anguish for want of energy—a void which no [illegible] fill—[illegible] which no assurance [illegible] Dr Van Zandt [illegible] his great success and the safety with which he administers his new method of electrical excitation together with his remedies which are adapted to the requirements of climate and constitution will assure you of a complete and radical removal of all bodily and mental infirmities within the scope of science and man to remove.

The Eye and Ear Diseases.

It must not be forgotten by the eye and ear sufferers that Dr Van Zandt has made these afflictions an especial study and that he is the only Surgeon in our State who has a diploma for that branch of practice Very many of the eye and ear troubles are purely deranged nervous action, and are cured by his electro-galvanic battery—as amaurosis, squinting cataract floating specks before the vision twitching of the eyelids, nervous deafness, roaring and buzzing noises in the ears, giddiness, etc. All operations successfully done on those delicate organs of sense

Exodus of Females to Richmond—The Washington *Star*, referring to a late departure from that city of secession women, for Richmond says

The cargo by the New York will no doubt be a decided acquisition to the society of the city of Richmond and elsewhere for among those who went down were a very large number of pretty, agreeable and intelligent ladies Had their baggage passed without inspection they would have added much also to the necessities of the South there in shoes medicines dry goods, and many other articles and goods much required at the present time in Jeff Davis dominion In many of the trunks were found dress goods of various kinds and textures pins needles thread etc, which articles were of course excluded In one very large trunk a sufficient quantity of dry goods was found to fully stock a country store Some of the trunks had ten fifteen, and as high as twenty five pairs of shoes — One lady, when asked why she desired to take so many, replied that she generally wore out two pair a month'

A gentleman asked an old lady who was going off whether she was pleased at her departure She replied ' Yes thank God it is a great pleasure to get to a government conducted by gentlemen and not by Yankee boors ' A crowd gathered around and then commenced expressions of contempt from fair lips for the United States Government generally and the President and Cabinet in particular One young lady remarked to a friend as she bade her good bye, Be sure and write quickly you know how to get the letter to me ' Another lady remarked that she hoped to return ere long, but with a victorious Confederate army A large number of persons went to the wharf with letters which they begged to send South Their requests were of course not complied with As the boat left the wharf most of the passengers collected upon the side nearest the wharf and waved farewells to friends on the shore The latter responded, and amid the waving of handkerchiefs and calls of farewell the boat steamed down the Potomac Included in the four hundred and fifty taking their departure were seventy whom Washington can well afford to lose, though it has many more to spare

Among the cyprians thus "swarming ' off from the hives here, are the delegations from various noted establishments about town Sal Austin's, "No 10 Mobile Alley," ' The Monitor," "Headquarters United States Army " "Gentle Annie Lyle's," "The Cottage by the Sea," Mary Hall s and other notorious houses Among the number from Sal Austin's was a little Frenchwoman named Levite, a native of New Orleans, somewhat notorious on account of her loudly expressed sympathies for the Southern cause She had in her trunk a large number of articles which she was not permitted to take, and with tears in her eyes she begged permission to retain them The officer who examined the trunk, however, was inexorable, and as a last resort, the "weeping fair" endeavored to bribe him by saying that he might come to Richmond some day, and if he did so, and permitted her articles to pass, she would befriend him there

Correct Doctrine—Gov Seymour, of New York, in treating the subject of military service for the protection of the country, shows that he has a sound head on one point, to say the least We quote

Justice demands that every man who enjoys the protection of society should be prepared to defend it Recent legislation on this subject has departed widely from this principle; no conditions have been prescribed upon which those who have scruples of conscience should be excused from bearing arms Exemptions have been multiplied until large classes are not only relieved from military duty, but also from giving any equivalent for such relief. They include numerous officials and other classes who have no claims to exemption beyond those which belong to every citizen engaged in useful pursuits

These favored classes are usually in a better condition to give an equivalent than the mass of those upon whom these liabilities now fall. There should be no such unjust distinctions, all male citizens of suitable years should be equally liable, if those who are unfit to perform duty are drawn, they should pay such sum as shall be deemed just by suitable tribunals If they are unable to pay the amount can be remitted, or like firemen, they might render an equivalent in an equally honorable branch of the public service If the lot falls on officials, they can procure substitutes, or pay such commutations as may be prescribed by law It is glaringly unjust to allow those enjoying all the honors and profits of official station to go free of all liabilities, while the only son of the widow, or the sole support of the family, may be forced upon a distant and dangerous service I also commend to your attention such other provisions as exist in European countries to mitigate the evils which a forced conscription involves, and which have been suggested by experience in their long and frequent wars

A **New Orleans** correspondent writes to a New York paper as follows

"A most remarkable affair occurred recently in the former head quarters of Major General Butler. Capt. J C McClure, of Gen Banks' staff, who had occasion to enter the office, found a rose lying on one of the desks, and taking it up to smell its fragrance he no sooner applied the rose to his nose than he fainted It is supposed the rose contained a poisonous powder, which caused the insensibility The flower has been secured and will be analyzed by a skillful chemist

"Old Holdfast"—The Murfreesboro correspondent of the Chicago *Times* writes

It is a fact not heretofore published, that, on the night of Wednesday's battle, prominent generals supposed Gen Rosekrans would retreat He never entertained such an idea After the rebels were gone he was complimented for his tenacity 'Yes," said he, "I suppose you know Bragg is a good dog, but Holdfast is a better one ' They will fight for him now even more gloriously than before

Long Lost—The daughter of W Wright of San Francisco, has been missing from her father's residence for the last three and a half months. She is about ten years of age tall, of light complexion, has prominent features, is freckled, and wore at the time of her departure, a plaid silk dress straw bonnet trimmed with blue ribbon, and also a plain gold ring on her fourth finger

Singular Shooting—Under the influence of a social glass a German, lately in San Francisco, allowed an American, who was also somewhat elevated to shoot an apple off his head In doing so most successfully a portion of the scalp also came away The marksman was arrested and held to bail in the sum of one thousand dollars

Thurlow Weed says he believes the rebellion would have been subdued ere this if, at the outbreak, the Government had suppressed every daily newspaper which contained a line or a word upon the war question, except to give the results of engagements

Proclamation by the Governor

Executive Office, Portland Oregon }
January 6 186[illegible] }

By the President of the United States through Brigadier General George Wright commanding the Department of the Pacific and Brigadier General Benjamin Alvord commanding the District of Oregon I have been requested to raise six additional companies required to complete the 1st Regiment of Cavalry, Oregon Volunteers They will be needed the coming Spring on the frontiers of this State and Washington Territory and for an expedition against the Snake Indians, who have so long been mercilessly engaged in robbing emigrants and murdering our fellow citizens. I cannot doubt that the citizens of Oregon, who have always promptly responded to any demand for their military services will in like manner respond to this call, thereby showing their loyalty to the Government and aiding in chastising marauding bands of Indians which infest our frontiers

The enlisted men, when mounted, will be supplied with horses by the United States, it being understood that they will be mounted or not, as shall be deemed advisable by the Government

Propositions to raise a whole company which will furnish their own horses and horse equipments, may be entertained The men are in such cases entitled to forty cents a day for the use and risk of their horses and horse equipments

Each company will consist of one hundred enlisted men and when mustered into the service of the United States to serve for three years, unless sooner discharged

Recruiting offices will be immediately opened at Portland, Dalles City and perhaps at other places By the Governor,

ADDISON C. GIBBS

Cyrus A Reed Adjutant General
